# Ecommerce Shipping Solutions

Bringing you access to the world's largest international carrier

### Export

As the oldest authorized provider of DHL Express services, we make it easy, efficient and cost-effective to get packages up to 250 lbs or more around the globe. Most deliveries average 2-3 days.

### Import

DHL Express clears more than 95% of all imports while the aircraft is still in transit. It offers door to door service, fast transit time, and is billed by Preferred Shipping on one invoice, in USD currency.

## It's never been easier to grow your business!

Preferred Shipping enables digital retailers of any size to provide their customers affordable, reliable, and fast delivery service to more than 220 countries and territories.

### Substantial Cost Savings

Our volume buying power saves you money

### Exceptional Customer Service

Talk to an international specialist, not an answering service

### Predictable Shipping Cost

Prices not contingent on annual shipping volume

### Personalized Support

Local expert provides direct training and resources

### Easy-to-use technology

Free web-based platform

### Experienced Worldwide Logistics

Average transport around the globe: 2-3 days

# Partner with Preferred

Our goal is to make it easy for retailers to sell merchandise, understand product entry requirements, and clear customs in the global marketplace.

By offering online retailers customized international shipping solutions, we decrease customer service issues. We strive to help our customers increase their global presence and gain new sales, while growing repeat business as a result of a seamless sales process.

## Inventory Management

Drop-Shipping through DHL Import Express allows inventory sourced from foreign vendors to be shipped directly to you or to your end customer. The savings produced by not having to maintain the inventories locally can be significant, especially for high-cost specialty products or parts.

## Benefits for Ecommerce Businesses

- ✓ Integrate our low pricing directly with many storefront platforms including ShipStation and Magento
- ✓ Minimize returned and lost packages through free international address verification
- ✓ Free 24-hours tracking visibility for you and your customers
- ✓ Free and easy daily pick-ups with no volume requirements
- ✓ Free signature delivery verification, reducing false claims of undelivered packages
- ✓ Optional value protection on all shipments - inbound and outbound

---

### Domestic Shipping Solution

Our partner company, Preferred Parcel Solutions, provides services within the US for ecommerce companies. Through a strategic partnership with Panda Postage, Preferred brings our customers access to the USPS, the largest residential delivery network in the country, at the best rate.

Our goal is to enable SMBs the ability to compete with larger organizations on price and logistics.
